Beckwith's anti-dyspeptic pills
have been most successfully employed in almost every variety of functional disorder of the stomach, bowels, liver, and spleen; such as heartburn, acid eructations, nauses, headache, pain and distension of the stomach and bowels, incipient distribura, cidic, jaundee, flatulency, habitual contreness, loss of appetite, sick headache, sea-sickness, &c., &c. They are a safe and comfortable aperient for females during pregnancy and subsequent confidement; relieving sickness at the stomach, headache, heartburs and meny of the heidental nervous affections. Literary men, students, and most other persons of sedentary habits, find them very convenient. Those who indulge too freely in the pleasures of the table find speedy relief from the sense of oppression and distension which follow, by taking the pills. As a dinner pill, they are invaluable. Those who are drinking mineral waters, and particularly those from southern climates, ague and fever districts, will find them a valuable adjunct. Those who are exposed to the vicissitudes of weather on voyages or journeys, can take them at all times with perfect safety. In full doses they are a highly efficacious and safe antibilious medicine. They seldom or never produce sickness at the stomach or griping.

There have been many imitations and worthless counterfeits of theae pills put in circulation by unprincipled and ignorant persons—the directions, wrappers, &c., of the genuine pills so closely and accurately copied, that the closest observer could not, without a trial of their effects, distinguish between them.

BUREAU OF CONSTRUCTION, EQUIPMENT, &c.

4th October, 1845.

SEALED PROPOSALS, endorsed "Proposals for hemp," will be received at this bureau until the 15th December next, for delivering one hundred and fifty tons of American water-retted hemp, at such storehouse in each of the cities of Louisville, Kentucky, and St. Louis, in Missouri, as may be designated by the United States hemp agent at those places; the deliveries to be made between the first day of March and the first day of July, 1846, and accompanied by satisfactory evidence that it has been water-retted in the usual manner.

The hemp must be thoroughly dressed, cleaned, free from shivers, and must not lose more than sixteen per cent. of tow and waste when hatchelled, to the satisfaction of the inspectors, ready for spinning. Its strength must be such, that a rope of one and three-fourths of an inch in circumference, made from twenty-one yarns, as prepared and tested by the inspectors, or by their direction, will bear at least four thousand two hundred pounds; and its length, color, and other properties, must be entirely satisfactory to the inspectors, or the chief of this bureau, or it will not be received. It will be inspected and tested at the respective places of delivery.

CAUTION to those who purchase or take BECK-WITH'S anti-dyspeptic pills.

I have satisfactory evidence that Beckwith's pills have been extensively counterfeited in various parts of the country, and particularly at New York, and sold at prices much below what the genuine article can be afforded at.

Since the agency of Mr. Henry D. Turner, John street, New York, ceased, on the 14th February, 1844, I have appointed no agents, and now have none in any section, except Dr. T. W. Dyott & Sons, of the Columbian College, Philadelphia. Those, therefore, who wish to purchase or take the genuine pills, must obtain them either of myself, or of those gentlemen, or of persons known to purchase them of one or the other. Protection against counterfeits.

Dr. Beckwith, proprietor of "Beckwith's antidyspeptie pills," having suffered great lows, as well as those who have been in the practice of using his pills being disappointed and their health injured:

It will be seen by Dr. Beckwith's letter of June 1, 1845, that he has adopted the only safe plan for himself and the public against these miscreants, by having placed the sale of his medicine in the hands of one special agent, where every one who wishes to be supplied with the genuine article must apply.

Dr. T. W. Dyott & Sons, of the Columbian College, No. 132 North Second street, Philadelphia, are the only persons appointed to supply the above pills in quantity, as no counterfeit article is permitted in their establishment. Dealers and the public will be safe in supplying themselves as above.

PROSPECTUS OF THE NEW LIBRARY OF LAW AND EQUITY, under the direction of Francis J. Troubat, esq., of Philadelphia; Hen. Ellis Lewis, of Lancaster; and Wilson McCandleas, esq., of Pittsburgh.

This work contains the best productions of English law authors, without regard to priority of claim on the part of any American publisher. Such books are now notoriously too dear. The reason is, that as fast as they appear, they become monopolica in the hands of booksellers in the Atlantic cities. Under the plea of right, acquired by the addition of notes of American decisions, the latter claim an undivided title to those works, and set a burdensome price on them. The publishers of the work now offered to the profession throughout the Union, will not respect such titles, but will reprint the standard British law books as fast as they emanate from the London market. Should new editions of the works of such writers as Starkie, the Chittys, Stephen, and Archbold, appear, they shall also be included; and digests of equity and law decisions—works which have been studiously kept out of the Law Library published at Philadelphia—shall have a place in the proposed new one, together with every new valuable English treatise on chancery or common law.

Balsam of Life, discovered by the celebrated Dr. Buchan of London, England, and introduced into the United States under the immediate superintendegee of the inventor.

The extraordinary success of this medicine in the curse of pulmonary diseases, warrants the American agent in soliciting for treatment the WORST POSSIBLE CASES that can be found in the community; cases that seek relief in vain from any of the common remedies of the day, and have been given up by the most distinguished physicians as confirmed and incurable.
